for easy and efficient sealing, masking, and insulating.

No more spilling, evaporation, and contamination! Seal-R-film™ sealing film seals beakers, flasks, and other vessels. The sealing film can be stretched to three times its original length. This means that Seal-R-film™ always fits, even with irregular shapes. For traceability, each roll has a lot identification. With the BRAND cutter for sealing film you can cut rolls with widths of 50 and 100 mm efficiently and economically and store them cleanly.

- + Protects against evaporation, leakage, and contamination
- + Easy sealing with 300% elasticity
- + Lot identification of each roll
